16. [] LIAISON Received a call from Rick Galen, in the office of Representative John N. Erlenborn (R., Ill.), who thanked me for sending him a copy of "Appearances and Activities of Leading Personalities of the People's Republic of China, 1975." He informed me, however, that he had mistakenly requested the publication for the wrong year and really needed the publication for 1974. I told him I would forward the 1974 edition to him.

He said the Committee would not be able to hold the hearing on 3 May and suggested the week of 8 May. He also said that the paper he had received from the White House on the Middle East air balance was so important that he was going to write to Frank Moore, Assistant to the President for Congressional Liaison, who had given him the paper, and ask if he could have the paper sanitized for distribution to the full Committee. I thanked him for the alert and told him I would try to set the briefing for 10 May.
